

50102 to 50203—Continued.

50180. *PTEROCARPUS* sp. Fabaceæ.

"Waterberg district, Transvaal."

50181. *RHUS* sp. Anacardiaceæ.

"(No. 240/19.) Potgietersrust, August 29, 1919."

50182. *RHUS* sp. Anacardiaceæ.

"(No. 230/19.) Potgietersrust, August 29, 1919."

50183. *SCHOTIA TRANSVAALENSIS* Rolfe. Cæsalpiniaceæ.

"(No. 237/19.) A very ornamental evergreen shade tree, with brilliant scarlet flowers; from the Waterberg district, Transvaal. Native name, *boerboom*."

50184. *STERCULIA* sp. Sterculiaceæ.

"*Nhengati*. A very tall tree; possibly 50 feet of clear trunk before the branches begin. The trunk is white, and the soft wood makes excellent paper; the wood is not so soft as that of the baobab tree (*Adansonia digitata*). Collected by Maj. R. Gordon, March 8, 1919."

50185. *STRYCHNOS* sp. Loganiaceæ.

"(No. 201/19.) Wood halt near Baya, Katanga."

50186. *TAMARINDUS INDICA* L. Cæsalpiniaceæ.

Tamarind.

"A fine shade tree known in Queensland as tamarind; cultivated there but wild in Mozambique. Native name *Malleta*. Collected on the Zambezi River by Maj. R. Gordon, August 6, 1919."

For previous introduction, see S. P. I. No. 47983.

50187 and 50188. *TERMINALIA SERICEA* Burchell. Combretaceæ.

A tree 2 to 10 meters high, with a flat crown, silvery white foliage, and yellow wood. It is called *geelhout* by the Boers and *mugorro* by the Kafirs. It is distributed from South Africa to Angola. (Adapted from *H. Baum, Kunene-Sambesi Expedition, p. 321.*)

50187. "(No. 223/19.) Potgietersrust. *Bosch Vual-bosch; M'wanunu* (Sesutu). A hard, durable wood."

50188. "(No. 247/19.) From the Matoppos, Matabeleland."

50189. *TOUNATEA MADAGASCARIENSIS* (Desv.) Kuntze. Cæsalpiniaceæ.
(*Swartzia madagascariensis* Desv.)

An African tree, 12 to 30 feet in height, with very heavy wood which is deep red in color. It is said to be excellent for piano manufacture and good for all high-class furniture work. It is a very durable and valuable timber. (Adapted from *Holland, Useful Plants of Nigeria, vol. 1, p. 248.*)

50190. *UAPACA SANSIBARICA* Pax. Euphorbiaceæ.

"*Mahobohobo*, or *massangi*: both names are correct. A large-leaved evergreen with wood used for timber and edible fruits. Collected by Maj. R. Gordon in Manicaland, Rhodesia."

For previous introduction, see S. P. I. No. 32394.

50191. *UAPACA* sp. Euphorbiaceæ.

"*Musuku*. Elizabethville, Belgian Kongo."

50192. *VIGNA SINENSIS* (Torner) Savi. Fabaceæ.

Cowpea.

"Cowpea grown by natives of Pondoland."
